Maximum Revenue (MR)

Maximum Revenue is the maximum level of revenue that a licensee can carry out in their financial year. The figure includes all revenue generated by the licensee regardless of where the licensee is located, where the work is carried out, or in which industry the revenue is generated.

MR (Maximum Revenue) is based on the NTA (Net Tangible Assets) of the licensee. Please refer to section 2 of the Minimum Financial requirements. Click [Link](#) to view the Minimum Financial Requirements policy.

Estimated MR (Maximum Revenue)

Certain licence classes are able to estimate their MR because they hold Professional Indemnity Insurance. Please refer to section 10 Professional Indemnity Insurance requirements of the Minimum Financial Requirements. Click [here](#) for more information.

RECORD OF CLAIMS APPROVED UNDER STATUTORY INSURANCE SCHEME

NO RECORD OF CLAIMS APPROVED UNDER THE STATUTORY INSURANCE SCHEME

DIRECTIONS TO RECTIFY

QBCC DIRECTIONS TO RECTIFY DEFECTIVE WORK OR REMEDY CONSEQUENTIAL DAMAGE

A Direction is a formal Order issued by QBCC to rectify or complete identified building work or remedy consequential damage.

NO DIRECTIONS RECORDED

Structural directions include defects which may:-

- allow water penetration into a building
- adversely affect the health and/or safety of the occupant
- adversely affect the structural adequacy of the building or
- adversely affect the serviceability, performance or functional use of the building.

QBCC is able to direct contractors to rectify Structural defects for six years and three months from the date of completion of the work.

Non-structural directions include defects which are not Structural and which:-

- result from a failure by the licensee to meet a reasonable standard of construction and finish; or
- are of a kind that commonly occur during the "settling in" period of a new dwelling.

Generally QBCC is able to direct contractors to rectify Non-structural defects for twelve months from the date of completion of the work.

Complied denotes the licensee has satisfied the requirements of the direction.

NOTE: This information will be removed from the register five (5) years after the direction was issued.

TRIBUNAL DIRECTION ORDERS

NO TRIBUNAL DIRECTION ORDERS

Where a licensee is involved in a building dispute before the Tribunal and the Commission has not already issued a direction to rectify or complete the building work, the Commission is prevented from doing so by the Queensland Civil and Administrative Tribunal Act 2009. The Commission can however seek an order from

the Tribunal that it would have been appropriate for it to issue a direction if the Commission considers the building work needs to be urgently rectified or completed.

Information on Tribunal Orders was not recorded on the Public Register prior to 1 July 2001.

NOTE: This information will be removed from the register five (5) years after the direction order was made.

NOTE: This information will be removed from the register five (5) years after the order was made.

An excluded company is a company which has a director, secretary or influential person who is an excluded individual. An excluded individual is a person who is excluded from holding a contractor or nominee supervisor licence, or from running a licensed company, due to an insolvency event.

NOTE: Legislation relating to "excluded persons" was introduced on 1 October 1999, any relevant event prior to that date is not considered. This information will be removed from the register ten (10) years after the decision to exclude occurred or when the director, secretary, influential person or nominee ceases in the company officer role, whichever is earlier.

PERMANENTLY EXCLUDED COMPANY

NO RECORD OF PERMANENT EXCLUSIONS

A permanently excluded company is an entity which has been excluded twice.

BANNED COMPANY

NO RECORD OF BANS

A company is also banned if it has a banned individual as a director, secretary, influential person or nominee. A banned individual is a person who is excluded from holding a licence for a period of three (3) years for carrying out Tier 1 defective work. Tier 1 defective work is grossly defective work that falls below the standard reasonably expected of a licensed contractor for the type of building work; and either:-

- adversely affects the structural performance of a building to the extent that a person could not reasonably be expected to use the building for the purpose for which it was, or is being erected or constructed; or:-
- is likely to cause the death of, or grievous bodily harm to a person.

An example of tier 1 defective work would be substandard work that requires all or a significant part of a building to be demolished or substantially reconstructed.

If an individual is banned a second time the period of the ban is for the life of the individual. Information on Tier 1 defective work was not recorded on the Public Register prior to 1 July 2003.

NOTE: This information will be removed from the register after ten (10) years

DISQUALIFIED COMPANY

NO RECORD OF DISQUALIFICATION

A disqualified individual or company is an entity which is excluded from holding a licence for three years for accumulating 30 demerit points or more in a three year period.

INFRINGEMENT NOTICES

INFRINGEMENT NOTICES PAID & DEFAULT CERTIFICATES FOR QBCC OFFENCES

NO RECORD OF INFRINGEMENT NOTICES

Infringement notices relate to specific offences under the Queensland Building and Construction Commission Act 1991 (QBCC Act) and the Domestic Building Contracts Act 2000 (DBC Act).

Licensees issued with an infringement notice are required to pay the specified penalty amount within 28 days or elect to have the matter dealt with by a Court. Failure to pay a fine in part or full or elect to have the matter dealt with by a Court will result in a default certificate being registered. Where a licensee elects to have the matter heard by a court the infringement notice will not be recorded here until the matter is determined.

Information on paid Infringement Notices or details of offences where a default certificate has been registered was not recorded on the register prior to 21 December 2007.

NOTE: Records of paid Infringement Notices or default certificates will be removed from the register five (5) years from the date the record was placed on the register or if the infringement notice is withdrawn by the Commission or the enforcement order stops having effect.

DEMERIT POINTS

NO DEMERIT POINTS RECORDED

Demerit points relate to specific offences under the Queensland Building and Construction Commission Act 1991 (QBCC Act) and the Domestic Building Contracts Act 2000 (DBC Act) and unsatisfied judgment debts which relate to payment and contractual obligations. Examples of relevant demerit point offence provisions include:-

- Lack of supervision
- Contracts to be put in writing
- Failure to Rectify Defective Work
- Failure to warn that a contract is a construction management trade contract
- Excess Deposits for domestic contracts
- Variations not in writing

For a full list refer to the QBCC website or relevant legislation.

Varying points ranging from 2 to 10 will be allocated for each demerit point offence and 10 points will be allocated for each unsatisfied judgment debt.

A licensee who accumulates 30 demerit points over a three-year period will face an industry ban for three years. If the licensee returns to the industry and within ten years of the first ban, accumulate 30 demerit points over a further three-year period the penalty will be an industry ban for life.

Information on Demerit Points was not recorded on the Public Register prior to 1 July 2003.

- QBCC may also suspend or cancel a licence of licensees who fail to pay judgment debts.
